EDUCATION

Education

2024 –
PHD

Ph.D. in Engineering
School of Environment and Society, Department of Innovation Science
Institute of Science Tokyo (Former Tokyo Institute of Technology)
Adviser: Prof. Kazutoshi Sasahara

2022 – 2024
MASTER

M.S. Management of Technology
School of Environment and Society, Department of Management of Technology
Tokyo Institute of Technology
Master thesis: Deepfake Sharing Behaviour with a Focus on Emotional Valence and Cognitive Biases
Adviser: Prof. Kazutoshi Sasahara

2023
EXCHANGE

Exchange Programme (one semester)
Wee Kim Wee School of Communication and Information
Nanyang Technological University (NTU), Singapore
Research project: How people's trust in the media changes when they are exposed to deepfakes.
Adviser: Prof. Saifuddin Ahmed

2018 – 2020
BACHELOR

B.S. Data Science
School of Informatics, Department of Natural Informatics
Nagoya University
Bachelor thesis: The advancement of three-axis tactile sensors for robots using deep learning methods.
Adviser: Prof. Masahiro Ohka

SKILLS

Skills

PROGRAMMING
&
ALGORITHMS

Python, R, LaTeX, HTML, CSS, JavaScript, SQL, Machine & Deep Learning

DATA
ANALYSIS
&
VISUALIZATION

RStudio, Excel, matplotlib, Python (TensorFlow, NumPy, Pandas, Scikit-learn, Keras), statistical analysis

WEB
ENGINEERING

Django, AWS, GCP

RESEARCH

Interests

Social Media Analysis / Disinformation and Political Behaviour
/ Polarization / Computational Social Science

WORK

Work Experience

- 2024 –
FULL-TIME

Data Scientist · Software Developer
Dentsu Digital Inc.
- 2022 – 2023
INTERN

Corporate Planning Analyst
Startbahn, Inc.
- 2022 – 2023
INTERN

Data Scientist
Accenture PLC

LANGUAGES

Languages

- ENGLISH

Fluent
IELTS 7.0 (2024 / 10)
- JAPANESE

Native

RESEARCH

Research Experience

- 2022 – 2024
TOKYO TECH
(MASTER, 2Y)

Deepfake Sharing Behaviour with a Focus on Emotional Valence and Cognitive Biases
Examined how emotional valence in AI-generated content (deepfakes) influences their sharing intentions, exploring the impact of altering emotional valence on users' willingness to share.
- 2023
NTU
SINGAPORE
(INTERN, 1 SEM)

How deepfakes are perceived in Asian countries
Investigated how people's trust in the media changes when they are exposed to deepfakes in seven Asian countries (Singapore, Vietnam, Indonesia, Malaysia, Thailand, China, and the Philippines). Primary focus on generating deepfakes and discussing research design.

HONOURS

Academic
Honours &
Awards

2024	Master Thesis Excellence Presentation Award Tokyo Institute of Technology
2024	Tech Direction Awards — Bronze (R&D / Prototype category) Technical Directors Association
2024	CAMPUS Asia Plus Scholarship A Joint Educational Program of four universities in Japan, China, South Korea and Singapore. ¥100,000 (JPY) per month × 4 months. Tokyo Institute of Technology.

TALKS

Presentations at
Conferences

INTERNATIONAL CONFERENCES (PEER-REVIEWED)

[1] 2024 / 07	The Emotional Levers of AI-generated Content <u>Ichikawa, K.</u> , Chen, J., Sasahara, K. Paper presented at the annual meeting of the International Conference on Computational Social Science (IC2S2). Philadelphia, USA.
------------------	---

INVITED TALK

[1] 2025 / 01	How Emotion Shapes the Sharing of AI-Generated Images: Findings from an Online Experiment <u>Ichikawa, K.</u> , Chen, J., Sasahara, K. 47th Hawaii International Conference on System Sciences (HICSS-58), 7 – 10 January 2025, Hilton Waikoloa, Big Island, USA.
------------------	---

JOURNAL PAPER (PEER-REVIEWED)

[1] 2025	False Failures, Real Distrust: The Impact of an Infrastructure Failure Deepfake on Government Trust Ahmed, S., Masood, M., Bee, A., <u>Ichikawa, K.</u> Frontiers in Psychology
[2] 2025 UNDER REVIEW	Domain-specific emotional effects of deepfakes on news-sharing behaviour <u>Ichikawa, K.</u> , Chen, J., Sasahara, K.
